JOIN US to learn about the birds who live in or visit Benicia's waterways and marshlands, trees, and vegetation: their family life, nesting, migration and feeding habits, threats to their livelihood, and conservation plans to preserve their future.

We will pour over an assortment of bird guides to get familiar with these helpful educational resources.

We will also enjoy impressions of local birdlife by local painters and photographers.

Binoculars: If you have a pair, bring them. We'll discuss how to use them and what makes a good pair.

It's so beautiful where we live!

NOTE: This program is offered free to the community. There is a suggested \$5 donation asked to defray costs for offering these programs, PLUS a request to bring some canned or packaged food for hungry people helped by the **Food Bank of Contra Costa & Solano Counties**.
